

# New Experimental Proton-Pairing Energies

Bohr and Mottelson:  $\Delta_p = 12\text{MeV}/A^{1/2}$

Jensen, Vogel:  $\Delta_p \approx (7.4 - 45I^2)\text{MeV}/A^{1/3}$

Madland and Nix:  $\Delta_p = 5.7\text{MeV} \exp(0.12I - 8I^2)/Z^{1/3}$
